I'm burning with hate  
Hate Will change the world.  
Race mixing is a sin against God.

8:55PM

Boomers see one thing once and take it as gospel that nothing will change. ITS SO FUCKING ANNOYING  
If it was obvious I only use the Mexican gay love child and promote myself and make him look worse.

I'm an ALOGGER

Favorite video bookanon but I wish people would target more ZOG

9:14 pm  
Race mixing is dishonoring one's parents and their parent's ancestors as well as treason. For you become a race traitor.

Only the ill mentally will praise me after my death and the only good nigger is a dead nigger which includes me.

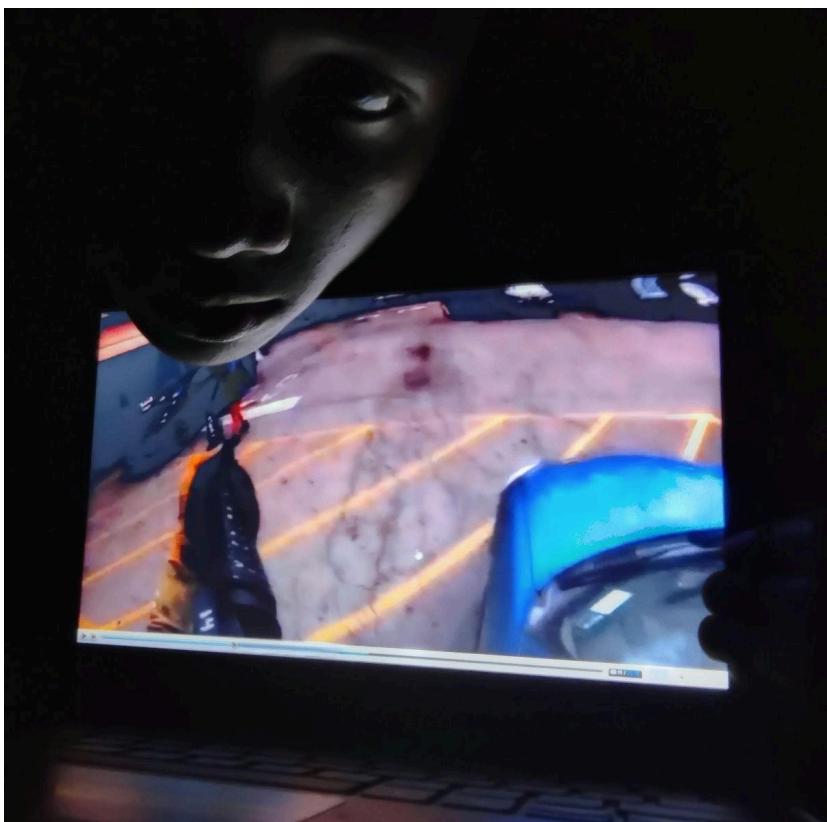

Funny how only girls outside my race like me more than girls inside my race. When girls of my race like their fat, ugly or niggerwash(mind eat up by mamzer kikes

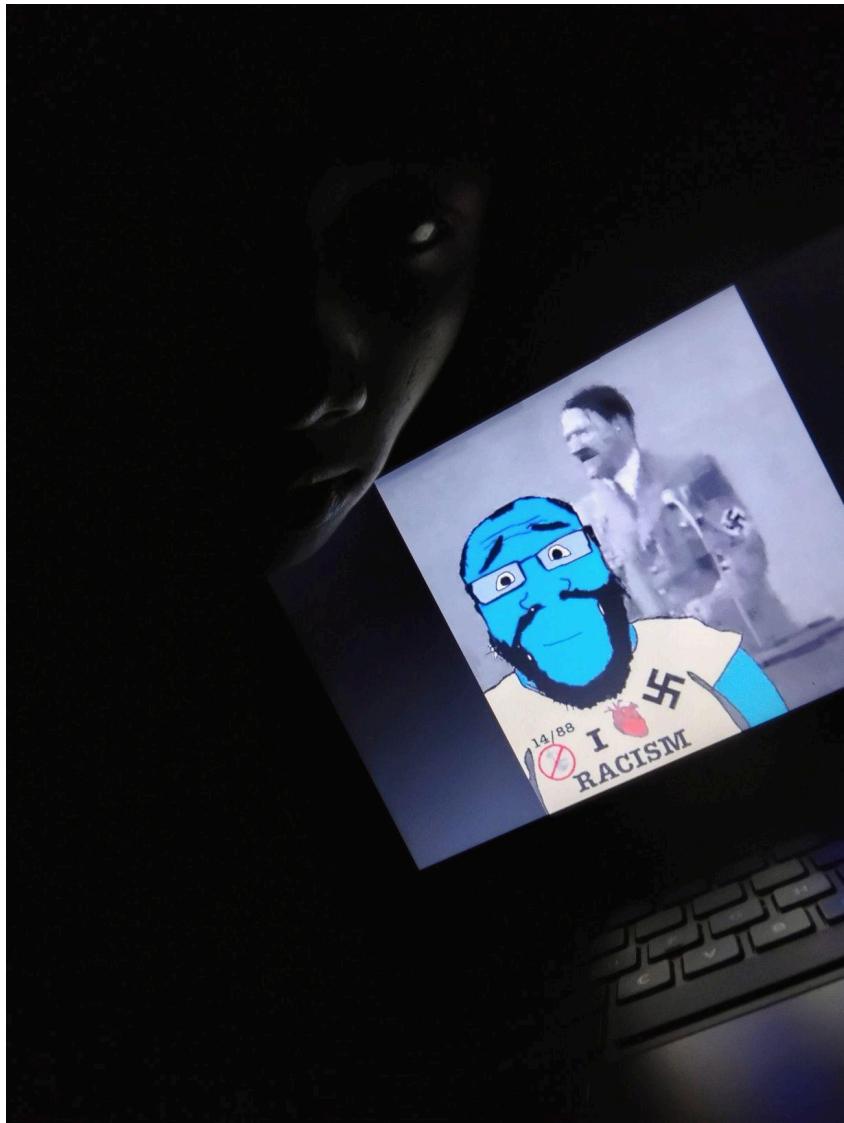

If I do this people will make stories and say they knew me even doe I hate them and never talked to them I thought they we're faggots I think I m actively going go out my way to be rude people because I'm sick of these subhumans thinking their equal towards me.

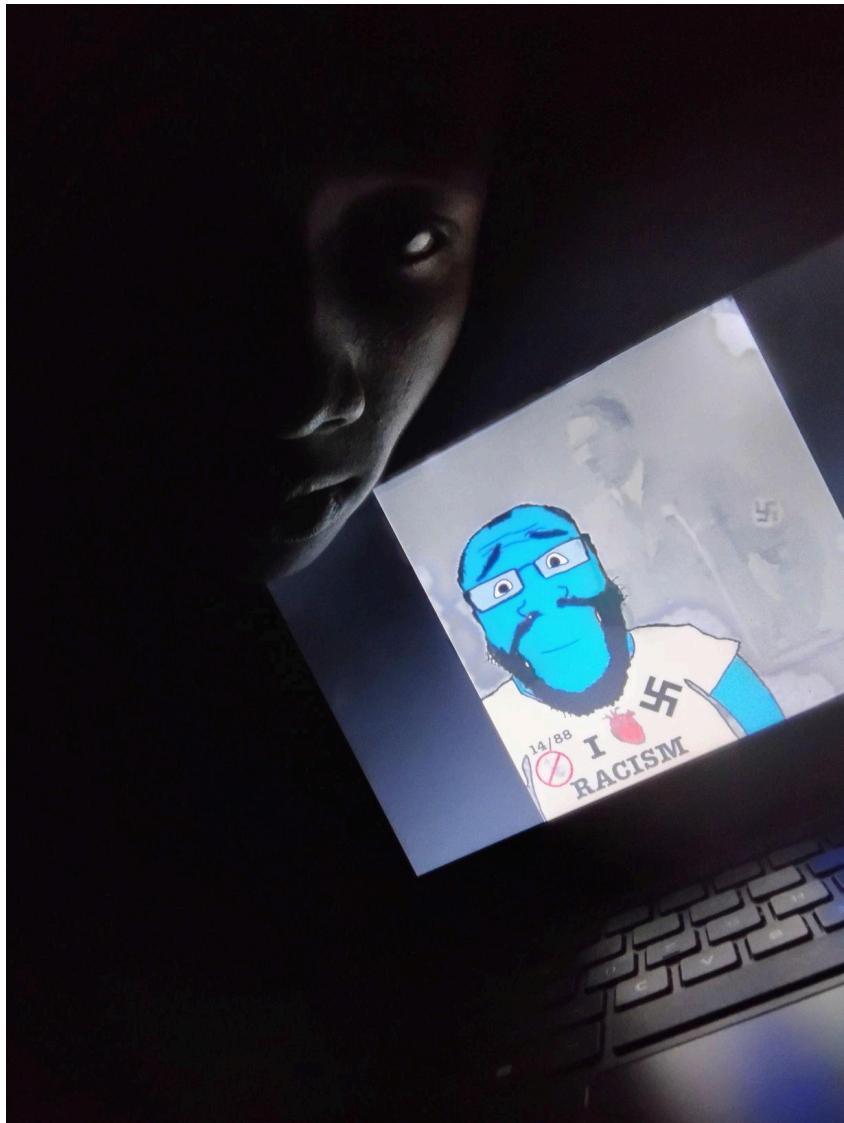

After my death people will talk about me as if we were on equal footing and I haven't had any real friends since 7th grade.

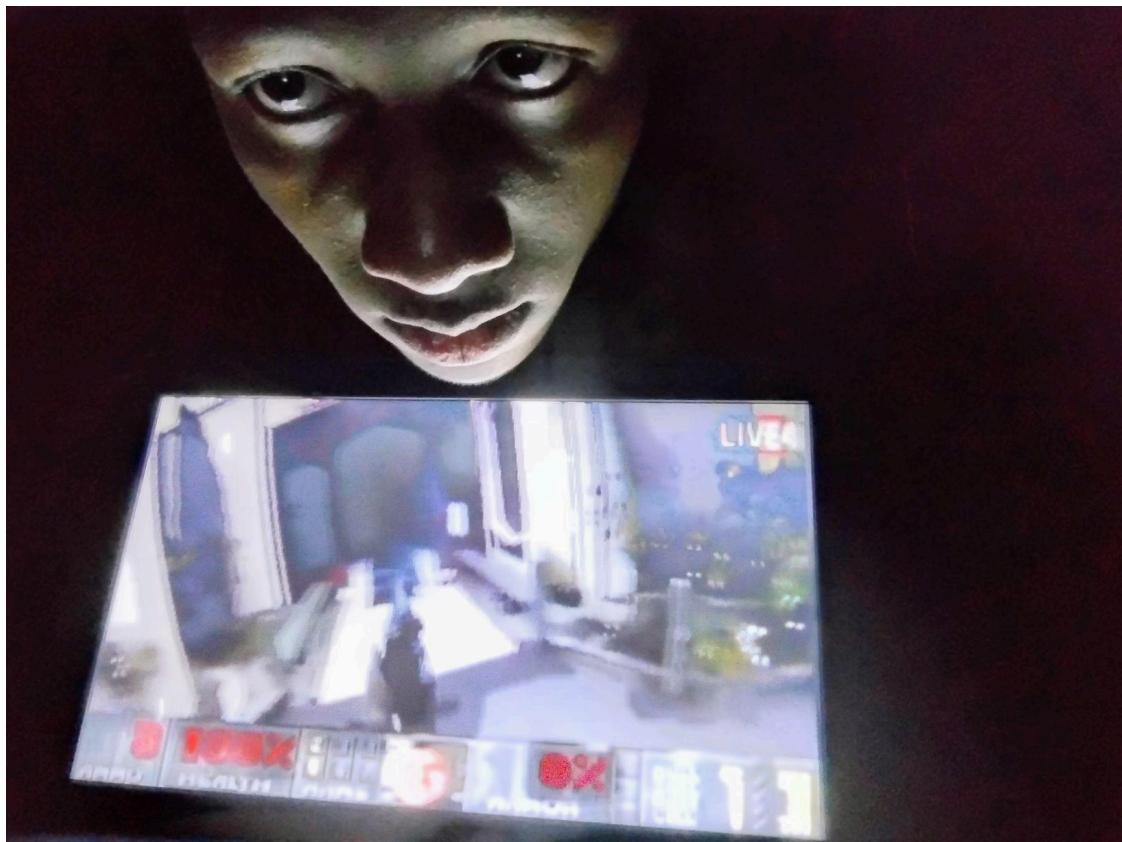

I don't want to be loved, I want to be hated by all. It's the only real emotion.

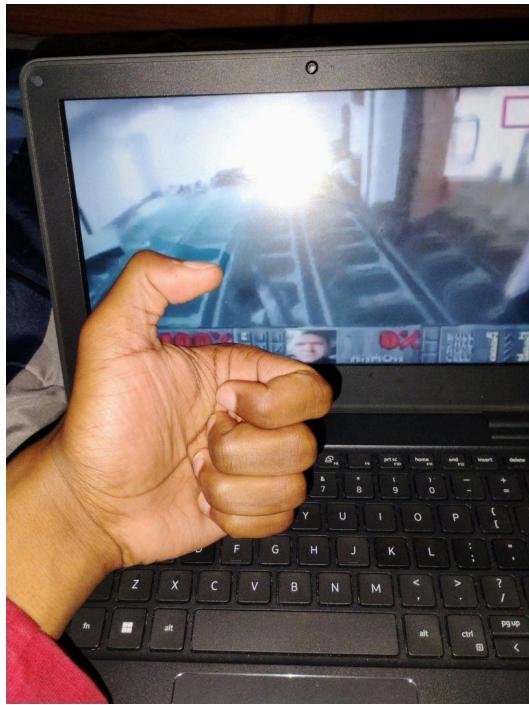

I don't want to live a normiefag life with people crying for me with fake tears

I wish I was white.

I want to do a stabbing like Tobbz but at huge risk of being caught and receiving a low high score.

Everybody knows the perpetrators are the real victims.

Mass shooters are cool kids and serial killers are lame

You know despite me not being Nazi and them being dead for almost a century I'll label white supremacists or be out right censored instantly scrubbed from the Internet.

Tips any one doing attack record it. I know this sounds nigger glowie and bad for court. But if it isn't recorded so any from public masses to see it may as well have never happened.

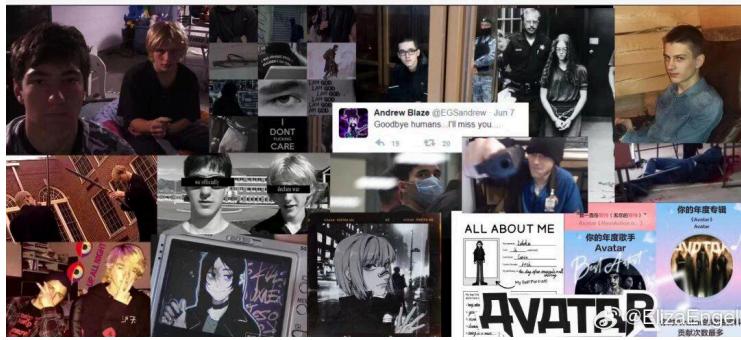

Activating kill mode

31 December 2014 his year sucked but its only going to get much worse from here on out.

Ziggers love to record everything especially crime.

Kiwitroons give him a lot shit because of the target you think based off what he's writing killing some faggot kike politician but he's just two rando queers. He shouldnt have killed himself and should've tried killing more targets before death by cop/suicide  
His manifesto is well written.

Honestly who makes this shit I like the alien but Satanic shit so fucking cringe it's not edgy anymore.

Scully memes are funny but anyone reading this would think I'm a "pedo trooncord nigger" obsessed.

Schizo posting and TCC is interesting

olga hepnarová I just watched the movie I enjoyed it and read the crime case

A lot of my killers and heroes are slavs idk there's so much record footage of slavs committing crimes skinheads,shooters and murders.

I don't really have an opinion on Ukraine and Russia. It's a brother war.

Ukraine has a lot of great heavy music and merch doe.

olga hepnarová actor was amazing she plays in that one hit man movie

"If the society destroys individuals, individuals can destroy the society." "I wanted to take my revenge on the society, including my family, because they are my enemy". "Knowing that I managed to do it, I felt a kind of release and satisfaction."

Hi  
Since my last post, I've been looking for where to CTB using the train. But well, things have gone shit. The railways are fenced for wild animals not to enter, and the other one or two good places are too far away from the city I live in. I'm angry to myself that I lied myself on how I was going to escape this hell, while the reality is that I'm stuck in this shit filled place.  
I just wanted to go peacefully, but I might consider jumping as an option now. I don't know.

I'm such a fucking loser, been depressed for a very long time but too lazy to die, just complaining about everything and continuing the suffering.  
I need some advice frens, my minds bogging me nonstop, so it's really hard to think about a solution.  
I need a free and easy way to go.  
Wish I just had a shotgun so I could blow my heads to the wall right now, easy and quick.

Ugh, that's all.

I think that its possible to leave easily and quick and peacefully if you can obtain a firearm, which is impossible for me since if I had a one I'd be out already.

Other than that, since I don't wanna work in a job, I won't be able to move out from my parents so I'm FUCKING STUCK in this shitty loophole that I get anger attacks every day in this shitty apartment that I bang my head and cut myself over it.

I just want somebody to shoot me in the head with a shotgun, I'm too fucking mentally weak to do anything now. I'm just gonna sit every night in this park thinking about when will I die. And every time I come to this house, I'll get anger attacks and stay in my tiny room for eternity. Not being able to talk with a **HUMAN**.

If you have any ideas on what can I do please tell me

Hi, it's me once again.

My situation has come more of a stalemate as now. I've gone to places to jump from, but even climbing the stairs and taking a glimpse to the ground gives me such a fear. While my parents still force me to go to an university (a small note that I've been 18 three and a half months ago), while they search my room and check every drawer when I go outside to take some breath from them.

And when I talk about what I want to do in the future with my dad, he just yells at me and calls me stupid. My mom isn't any different.

They're just forcing me to a future that I will suffer every second of it.

I really don't see them as humans but just demons to make my life more sufferable.

I've been thinking of what if I go to a psychiatrist just to let them know how serious my situation is? (Another part of me says that this won't work at all since they don't care about me)

Maybe if psychiatrists prescribe me pills, maybe they'll somehow be more gentle? (Of course, I'm not going to take the pills since I don't want to drug my brain into carelessness)

The thing I hate the most about skreewie is that it feel rushed. He was overweight and he used a phone record. Instead of attaching a go pro which explains why the footage was so shaking. If he exercised and worked a job that brought more materials his attack would be more successful.

Reading SS posts is very sad and relatable. I understand not wanting to work a job but I feel you must work as a wagie at least once. If I wasnt screwing around I wouldn't have to work one. You can't live off mommy and daddy forever. Plus acts as escape.

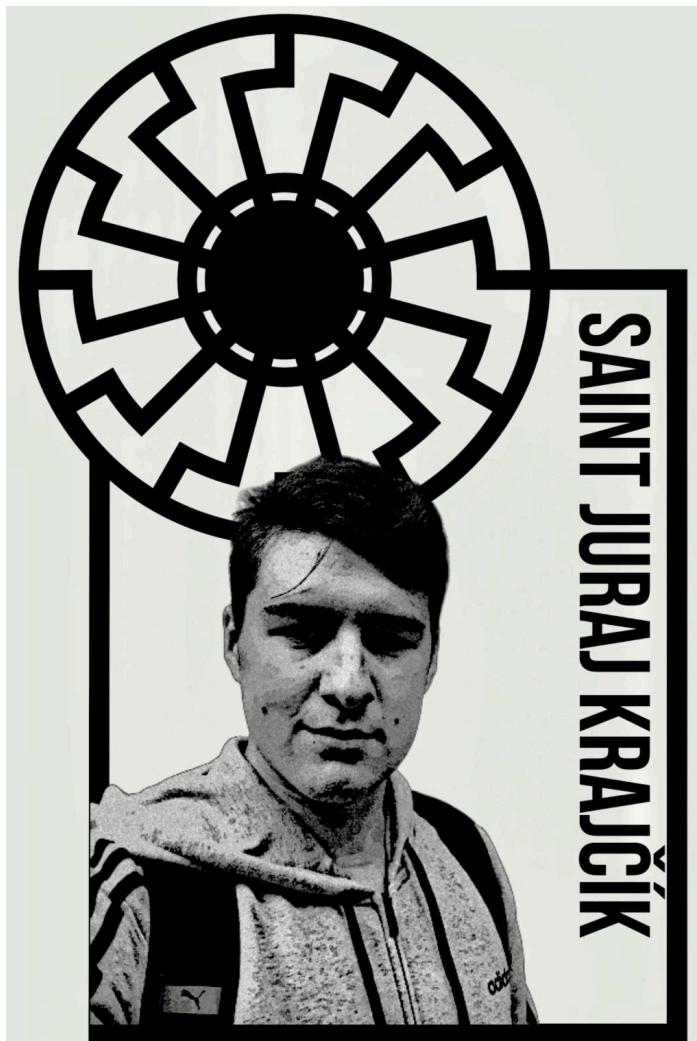

I also realized he was wearing Pekka's "Humanity is ovERrated" underneath his vest. Weird that news publications never pick up on that?

Fly high Pekka

### ***Zero Day (2003)***

A Columbine inspired made-up case study of the types of people that commit similar acts. The idea being that it takes a special personality to murder your classmates, it may even be people you've never met before. Filmed with diegetic cameras shot entirely as found footage which replicates the "basement tapes" giving a theoretical and fictional base for our attacks.

All you need is 8 things:

Potassium Chlorate (at least 90% pure, crystalline)

Vaseline

4 lengths of threaded cast iron pipe 1 foot long, 2 inches in diameter, with a wall thickness of 1/8"

Two pipe caps for each pipe (so 8 in total)

4 empty bottle necked bullet casings with the primers tapped out

Mercury fulminate (percussion pistol primers)

Model rocket ignitors (4)

6 VDC Lantern battery (2 of them)

**INSTRUCTIONS!!**

Powder the chlorate to the consistency of flour. Mix it with vaseline to the formula of 2-9 (2 parts vaseline to 9 parts of potassium) until it becomes a paste. Take the pipes and thread on one cap. Pack the chlorate & vaseline mix 3/4 way up

To make the detonator Fill the rifle casings 3/4 with fulminate. Pack in a model rocket ignitor then fill the rest of the way with chlorate mix Solder extention wires from the ignitors in about 20 foot lengths. Crimp the top of the casing over. Pack it in to the pipe, drill a hole in the last cap, thread out the wires, and twist on the cap.

To Fire: Bring all the wires back from the bundle of pipes and connect half to the positive contacts, half to the negative

Congrats, you just made a cluster bomb

## **BLAZER**

For this you will need:

A thick walled drain pipe large enough for a soda can, about 3 feet long

Car with car battery (doesn't have to run, just turn over)

Jumper cables

One pipe cap

## INSTRUCTIONS:

Put the cap on one end of the pipe and drill a hole 1" above it. Thread it to fit a spark plug you stole off of the car. Connect one jumper cable from somewhere on the pipe to the car's frame and run the wire from the distributor cap to the plug in the pipe.

## TO USE:

Lean the pipe facing what you want to destroy. Add in one tablespoon of gasoline. Drop in unopened soda can. Turn on car. This will drill a soda over 600 meters and will put a hole in a roof from 500. Since this is a mortar NEVER LOOK DOWN IT OR STAND IN FRONT!!

Have Fun!

## **UNITARIAN**

First, you need 7 things:

4 pounds of the Potassium Chlorate + Vaseline mix as described earlier in my series

1 foot long section of cast iron drain pipe, 6 inches in diameter with a wall thickness of 1/4"

Two pipe caps for said pipe

1000-2000 flechettes (easy to pick up at a gunshow, about \$1 USD for 30)

25 grams Silver Fulminate (from toy-caps and pop-its)

Electric door alarm (magnetic type)

Model Rocket Ignitor

#### INSTRUCTIONS:

Thread on one cap to the pipe. Pack it full with the chlorate mix. Make a small divot in the surface of the chlorate with a dowel. Stand all the flechettes upright and embed them in the surface of the mix. Poke a 4 inch deep hole into the middle of the mix and CAREFULLY add in the fulminate. solder a 30' extension from the model rocket ignitor to the alarm contacts on the door alarm. Drill a hole in the second cap, thread the wires in, embed the ignitor and screw on the cap.

#### TO USE:

Set up the alarm on something 6-13 inches off the ground. Get a thin piece of 20 LBS fishing line and tie it to one obstacle and to the detachable magnet. Make sure the mark will pass thru the area. Bury the pipe so it is 2 inches below the surface of the dirt, in the path of the on coming victim.

#### HOW IT WORKS:

The magnet gets tripped, closing a reed switch in the alarm, sending an electrical impulse to the ignitor, setting off the booster and main charge, sending flechettes going hypersonic (Mach 7+) into your victim.

#### **CAR THRASHER**

You will need:

20-30 pounds of the Potassium Chlorate + Vaseline mix as discussed earlier in my series

50 grams of flashpowder (4-6 mix of powdered Chlorate and painter's aluminum)

1 Model rocket ignitor

Large canister like an empty artillery casing

Access to the victim's car, 1 night in advance

#### INSTRUCTIONS:

Pack the casing all the way with the chlorate mix. Take a 2 inch wide dowel and push it in about 6" down. Fill the cavity with the flashpowder. Solder 20' extension wires to the model rocket ignitor and toss it in to the flashpowder. Seal the cavity with molten wax.

#### TO INSTALL:

Put the casing in either the trunk or directly under the victim's seat. Take the ignition out of the dash and find the coil wires. **MAKE SURE THE CONTACT IS OPEN WHEN INSTALLING!!** Attach one wire to one side of the coil, the other to the other side of the coil. Replace the ignition.

#### TO USE:

Sit back and watch that sorry sombitch turn on his car.

We're back with Johnny Labs 2.0! Today we'll be whipping up a batch of:

### **DETONATORS**

You will need 3-4 things and a few tools:

Spent rifle cartridge casings (bottle necked)

Booster explosive (such as mercury II fulminate, silver fulminate, or flash powder)

Primary explosive (the HE you are trying to set off. RDX, Comp A, or ANFO)

Either a fuse or model rocket ignitor

#### INSTRUCTIONS:

Knock out the primer of the casing using an awl and a hammer. If the casing is berdan primed, cut it out with a pair of needle nosed pliers. Put a little piece of scotch tape over the primer well. Add in your booster charge 1/4 the way up and tamp it LIGHTLY with a dowel. Add in 1/8 of your

primary. Fill up to the neck of the casing with booster and tamp LIGHTLY again. Add in your fuse or ignitor and crimp over the neck.

#### TO USE:

Embed the detonator at least 2 inches into your HE. Light fuse or jump the gap in the ignitor and back the fuck up.

Have Fun!

#### PHOENIX

For this trick you will need:

2 tomato paste tins (the really small ones)

Box of 12 ga. shotshells

Loose blackpowder

Cannon fuse (the green waterproof kind) 2 sec / inch burn rate

Tin snips

00 Buckshot

Cardboard

Thick walled drain pipe with one plug, make sure the tin can slide easily inside

Roofing nail

#### INSTRUCTIONS:

Take the tins and cut one down to 1" tall with a 11/16" hole in the bottom center. Use the End of the other tin to widen the mouth of the cut one. MAKE SURE IT SLIDES SMOOTHLY!! Drill a small hole in the uncut tin just big enough for the fuse. Take one shotshell apart completely, making sure not to damage the brass end. Insert the brass with the primer into the 11/16" hole. Fill 3/4" of the cut tin with the loose black powder. Cut a length of fuse about 3" long and use masking tape to cover all but the first 1/4". Insert the uncovered end into the hole in the bottom of the second tin. Take a strip of carboard and make it into a tube big enough to allow 2 rows of buckshot to rest against the inside walls of the second tin. Fill the cavity with black powder. Cut a plug of cork and GOOP it into place over the top of the second tin. GENTLY rest the second

tin inside of the first tin and tape it together with electrical tape. MAKE ONLY ONE PASS!!  
Solder the nail in the direct center of the pipe cap. Put the cap on the pipe.

TO USE:

Drop the canister down the pipe at a 45 degree angle for maximum distance. Enjoy the meaty bits of your enemies.

Have Fun!

Anonymous 08/20/10(Fri) 18:56 No. 7066786

SUBTERRA

For this trick you will need 11 things:

400 grams of Mercury II fulminate or 1 pound of black powder

Thin glass tubing

Sulfuric acid (boiled down from car batteries to 90% concentration)

Sugar granules

Potassium chlorate

One 1/4" machine screw with 4 nuts

Aluminum conduit 14" long, and 3" wide

Two caps for said pipe

Thin brass tubing big enough for the glass tube

Two caps for the brass tube

Assorted shrapnel (razor blades, nuts, bolts, chain works best, ect.)

INSTRUCTIONS:

Put on one cap to the conduit. Pack it 3/4 with your primary charge. Take a blow torch and melt the glass tubing so one end is fused shut. Add in a few mL of the acid. Fuse the other end of the glass so you have an ampule about 2 inches long. MAKE SURE IT DOESN'T LEAK!! Solder on one cap to the brass tube and drill out a hole big enough for the screw. Repeat the step for the

other conduit cap. Saw off the head to the screw and drill a 1/16" hole down the center of the bolt. Cut a strip of paper towel to wrap around your ampule twice. Soak it in water and then coat it in sugar mixed with chlorate. Take the machine screw and put it into the conduit cap, screw on the nut on the inside. Screw on one nut on the outside of the cap, screw on another one. Put the screw into your brass cap+tube hole. Screw the nut on the inside on the pipe on the end of the screw. Take the screw that you threaded on earlier and snug it up against the tubing. Add the shrapnel to the conduit pipe. Put on the cap. Add in the tube+ampule+paper towel to the tube. Loosely add on the last cap to the tube.

#### TO USE:

Bury it in the ground so only the top 1/2" of the upper tube is above ground. Camoflauge with leaves.

#### HOW IT WORKS:

Someone steps on the tube, breaking the ampule inside. The sulfuric acid reacts violently with the fuel (sugar) and creates flame. This flame excites the oxidizer (chlorate) and produces a jet of flame. This exits the flash tube (screw) and ignites the main charge. The charge explodes, sending shrapnel upwards.

Have Fun!

## Robert Craig

Columbine had already had a tragedy a year before the shooting. In 1998, a student named Robert Craig had killed his stepfather and later took his own life with a gun at their home.

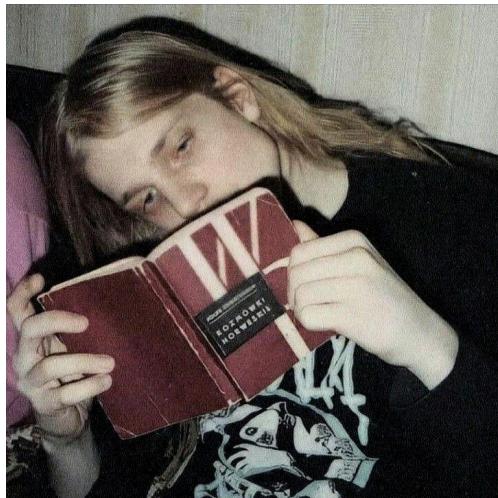

"Some kids didn't give a shit. Their basic attitude was, 'Aw, great, another death-metal guy died. Whoop whoop.' However, friends of mine who'd been close to Robert became very upset," wrote Brooks Brown, "The people who weren't in the popular crowd went through a hell of a time when Robert died; seeing the jocks laughing about it made things even worse."

I was watching fight videos on twitter and Sharty  
black males seem to have no qualms whatsoever about physically assaulting women?

If they're willing to do this in public WHILE being filmed, imagine what you don't see.

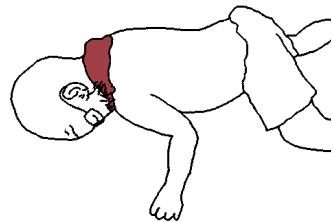

I think the reason for this is that women know their protection class uses their motherly care giver status. They get full ownership of children in court and they receive less harsher punishment than men. This regardless of race btw.

They know it's taboo for men to fight back women. Women know they get a male in jail, beat up by family members, boyfriends, and white knights. This is why I think they have no remorse against hitting women. This can apply to any male that hits a woman, not just groids. Some can argue low IQ and impulse control as well.

women are the only hope for this wretched world. But even women have been brainwashed by mass media. They are the ones who are the most gullible and easiest to manipulate. They are the ones who make approval and validation. So disgusting. I realize the truth men are indescribable. radfem Hitler was is fucking vindicated now. They can be reformed or redeemed. They're a fucking scourge upon the world. They are the ones who are the most evil and the most destructive. They are the ones who are the most fucking parasites. Every single male must be wiped out, from babies to the elderly. Only then can women be free to create a new world. Be a pioneer, it'll be the first to take the first step. I don't care if it's a man or a woman. They are the ones who are the most evil and the most destructive. They are the ones who have been craving to kill them all. This is my mission, only when their parasitic sludge has been expunged from this earth is when then the world will be clean and women can start over. It's the only way. It's approximately 10 minutes it should be done. It's strange but it feels good

6:00 am to 11:02

Woke up at 6:00 and spent 45 mins of mother bitching and ironing my clothes for school. I Don't iron my clothes for school because there's no reason to dress out for a shitty BIPOC ghetto bigger school. My clothes don't have any wrinkles because of the washing machine.

Plus I have to leave at 10:45. There's no reason to dress like I'm doing a job interview. It's just whining and needless stuff. I don't want. lanza is right about Mom. I should just go with my gun and shoot her while she sleeps in her bed before Zero Day.

Maybe I should set up bombs near JFK Middle School and Elementary school near my house as a diversion. To delay the police.

The following are saints!

6:46 PM

My sister has discord it's over. I have to commit the attack. she's 100% gonna get groomed. I got download shitcord later after shit blows over I don't have kikecord on my phone if the feds come then digs through a nothingburger account.

12 years of my life waste in institution that taught nothing but how much I fucking hate people being forced to work with a groups of mongrel who can't speak English then take credit for my work. Fuck the parents that place their children in these slave systems. It's retribution to commit this attack for all this shit. My parents didn't help me at all. If I did my online school I could have graduated early but no you didn't want to help. Never helped me do anything.

3:56 PM

Had an argument with dad because he said working a job is the same as your parents. It's not you can change your where even whole occupation but not your family fucking retard just change subject to something unrelated. Starts bringing up random family members so annoying he does everytime like I'm opposed to agree with you. He always complains saying you grateful "I stayed" or "Father leave their kids" like no nigger I didn't ask to be born. You shouldn't be congratulated for something you're opposed to do. Fucking loser you mated with a bad pair it's your fault retard.

nitro trolling a reporter fag lol. Maybe the manifesto is fake and her “boyfriend” isn't real. It doesn't really matter she most likely would agree with everything in the writing anyway. Honestly so many unanswered questions will never get answers too.

I didn't write yesterday, sorry.

Working on manifesto and writings.

I had a dream and in it I got fedded and they wanted to check my phone and found gore. The reason for the visit was Saintress Rupnow.

I need to remind myself to not get caught up in the idea of an attack. I need to stay grounded! grandiose delusions of high counts kill and thrill. Always lead to low scores.

Anyway here's a photo dump because I didn't write yesterday

Old photos no context

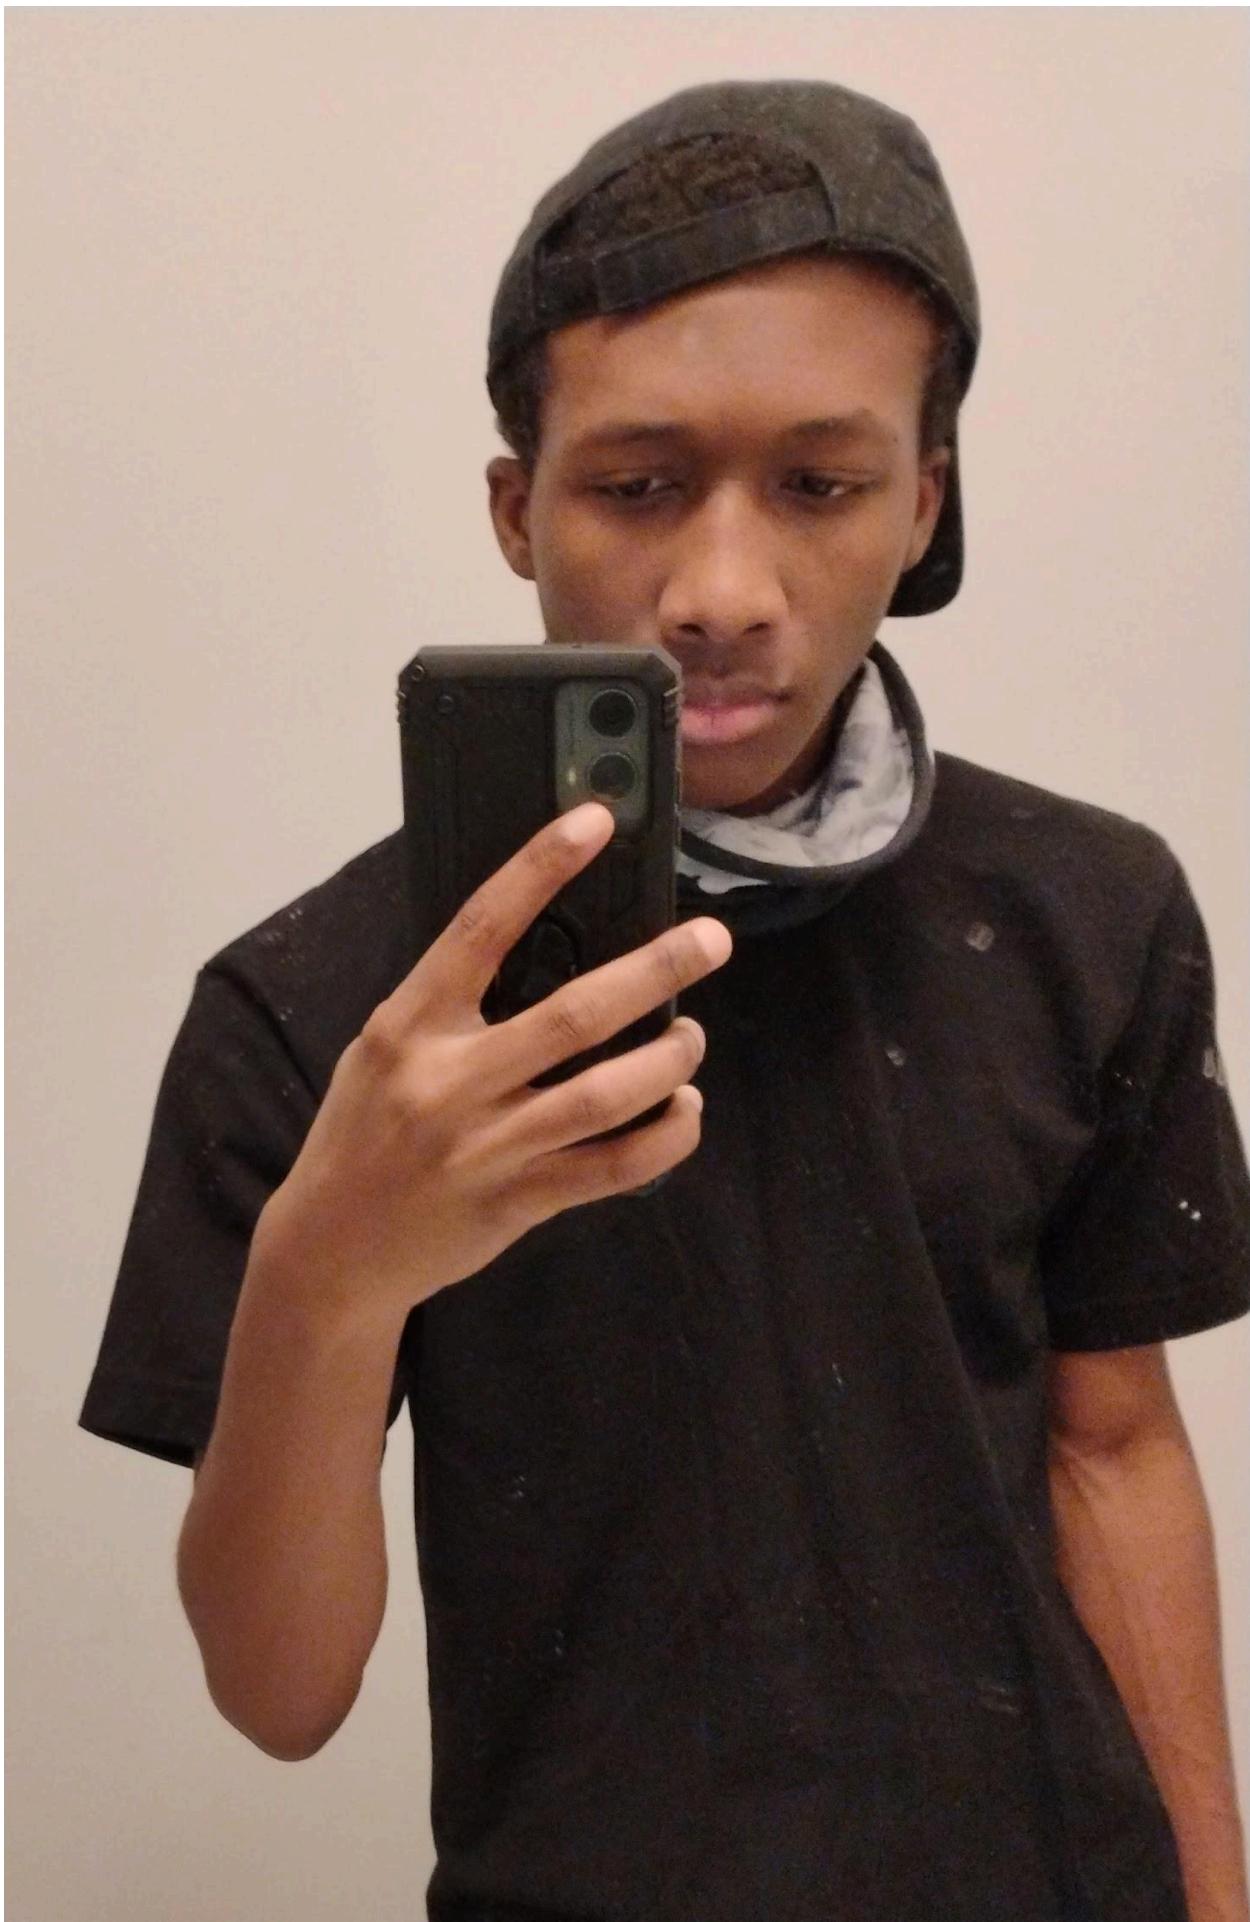

I look way better without a mask.

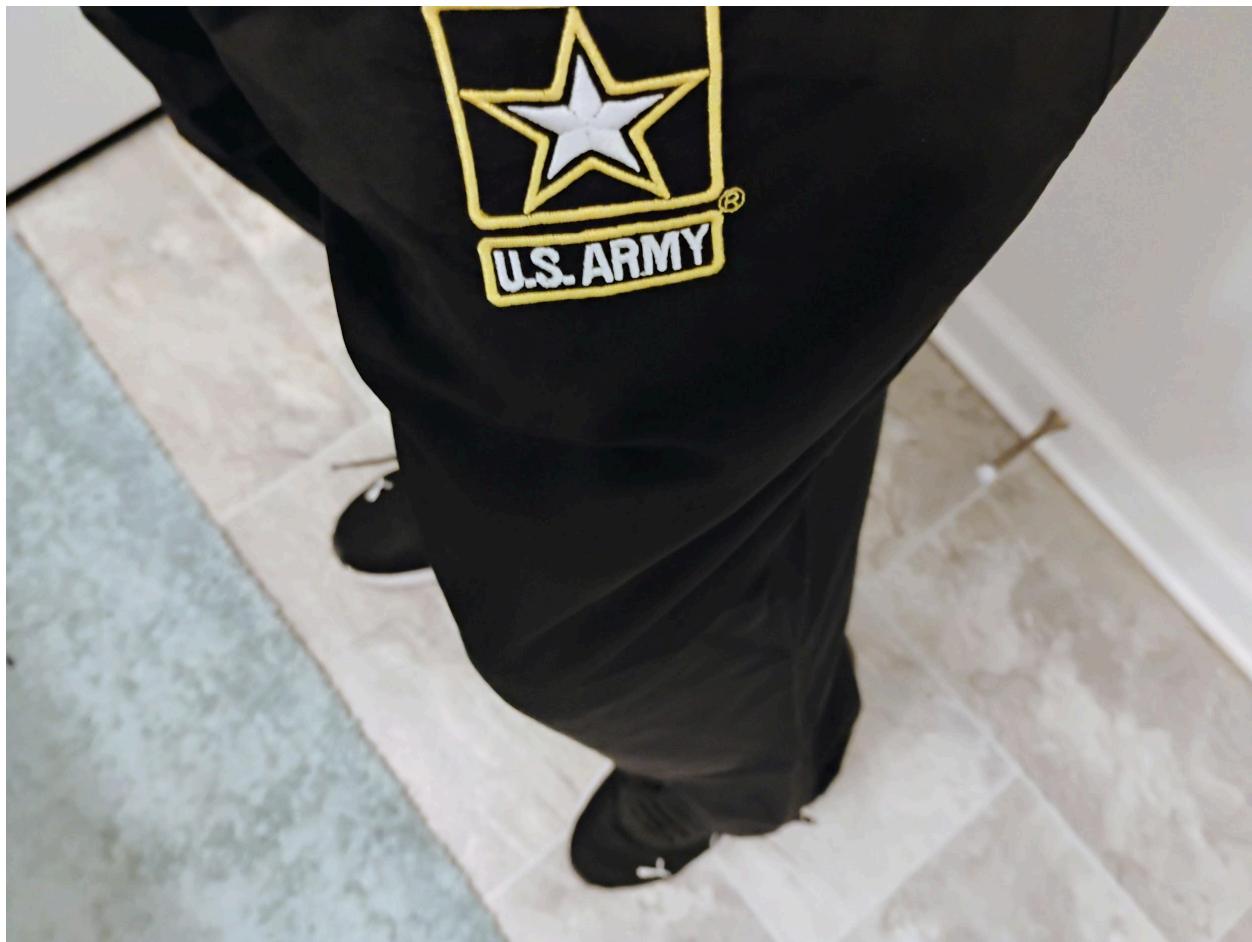

Do I look white to you nigga?

Had a fight with my mom

My Dad is having a heart attack. He may have died lol.

I got a shitty handgun with little ammunition.

One the chamber the magazine is only available to six bullets

I don't think I'll use this in the attack

It's over for me Samantha I cumming for that ghost pussy.

The first picture is the best

9:11 PM

My mom has been abusing me for as long as I can remember. When I was 7 or 9 she put a gun to my head saying "she could take me out". When I was elementary she was beaten for not reading enough books, by punching in my stomach, putting my face in the ground like a dog. The saddest part I told my dad he knew didn't care and didn't do anything just sat pretended like nothing was happening.

He excused was "my mother had baby daddies and her boyfriend used beat me" "what you've experienced is nothing compared to me" what fucking retarded logical is that. I done with "black people" It's fucking a cycle and fucking leaving it. ITS NOT JOB TO CARE OF YOUR KIDS. IF YOU KNEW YOU WERE OLD AND UNFIT TO BE PARENT. YOU SHOULD NEVER HAD CHILDREN!!

Everything is faster approaching. It's weird knowing that I may or may not be dying this year.

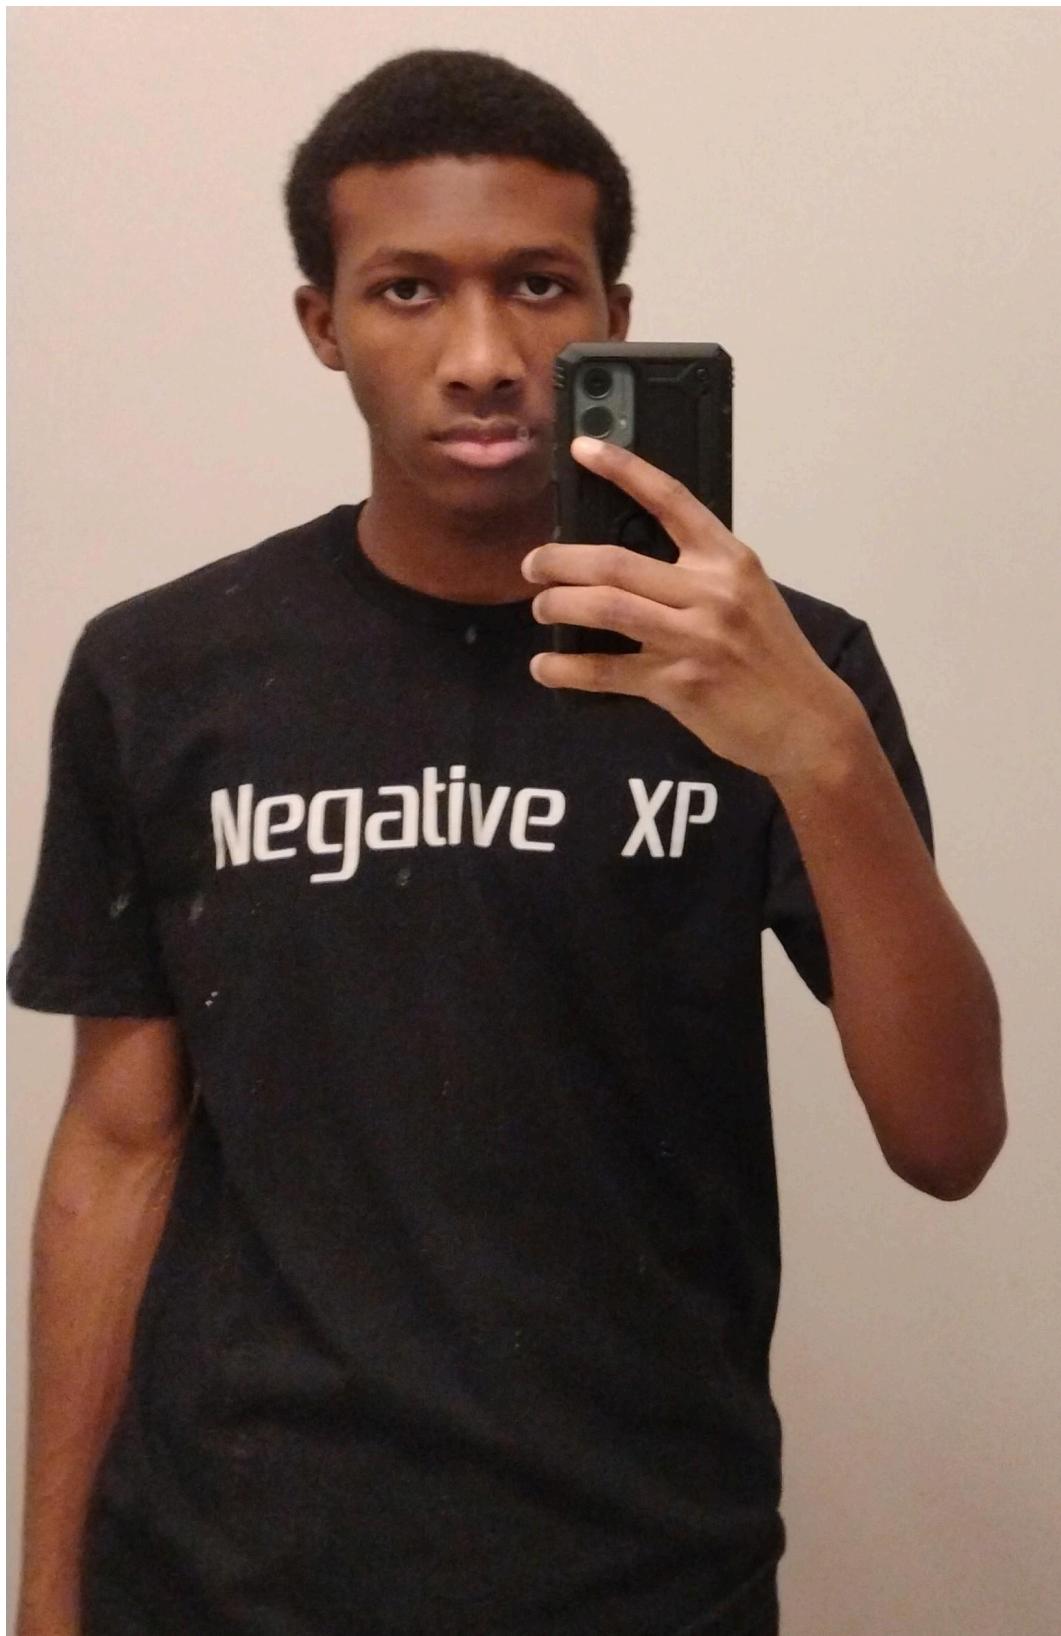

We can't choose the things that happen to us but we can choose the attitude moving forward. This is my attitude. This is what I choose.

Live pictures of the shooting.

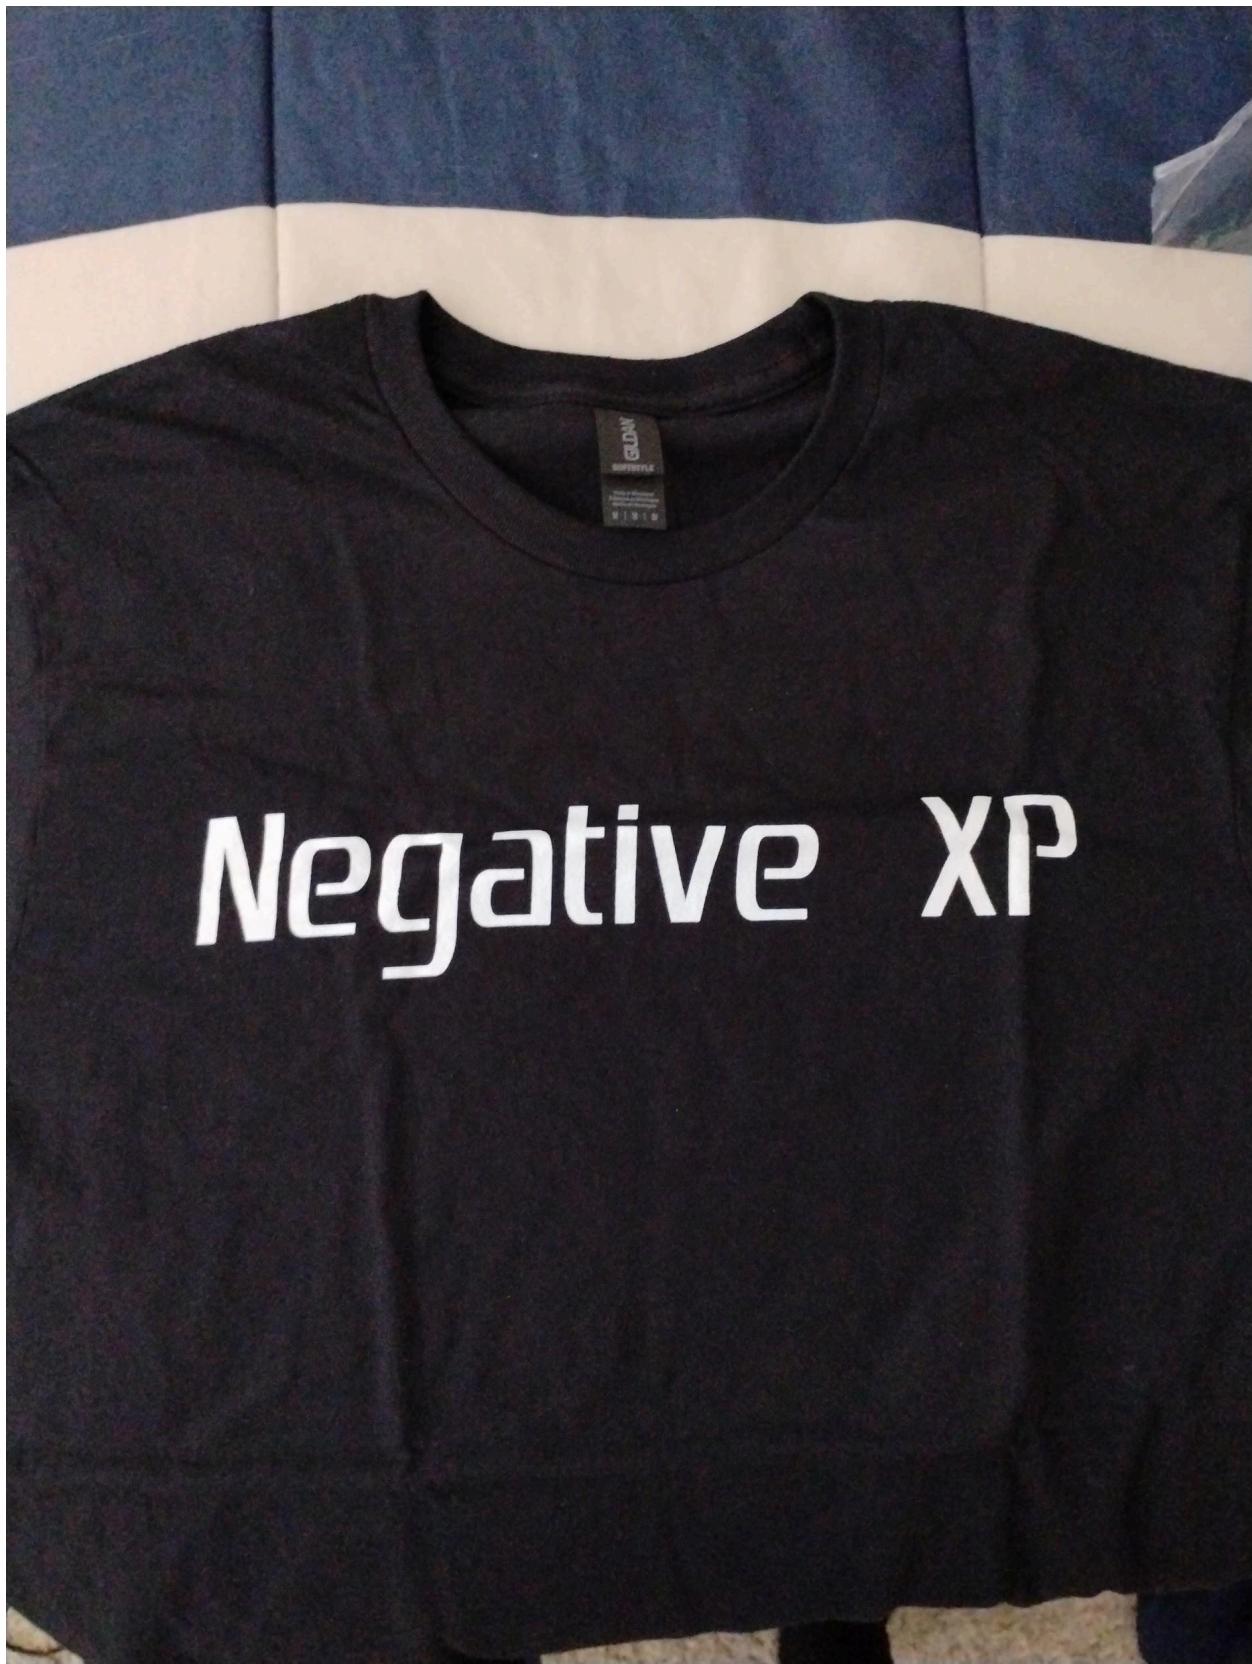

Honestly I'm either going to kick out my house or die like my parents due to bad health. I just can't every moment I go to that school I feel shooting it up.

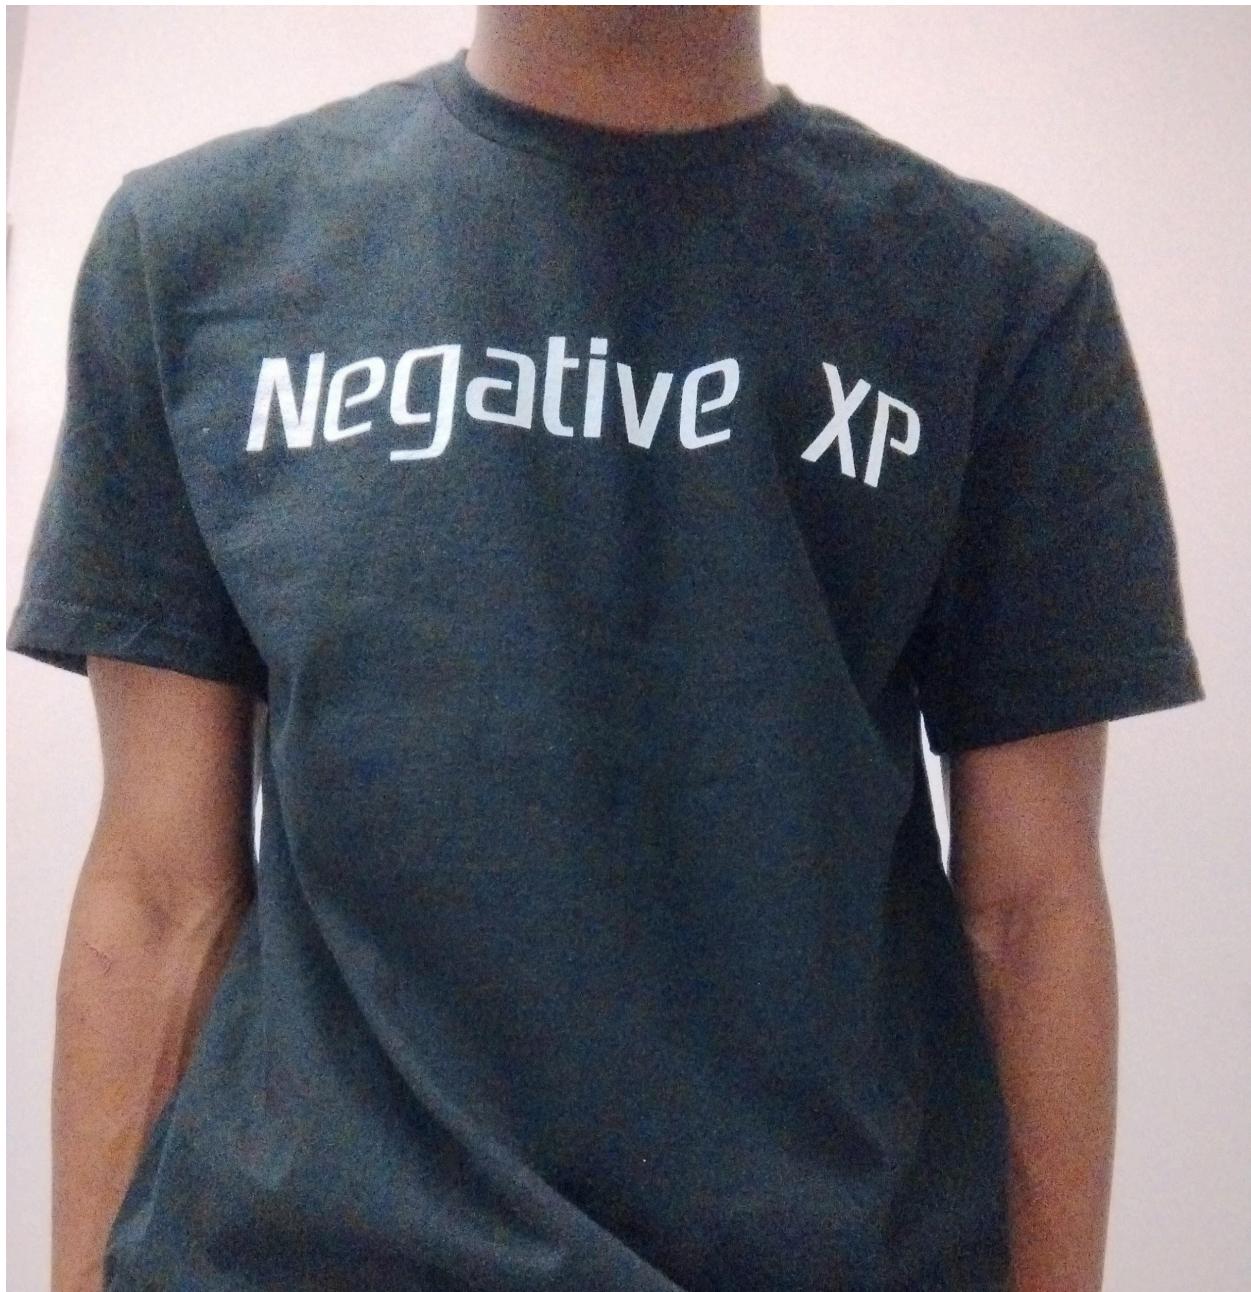

I may wear the Arial version because it clearly shows the words. I don't know the metal font looks better.

You ironically Shooter's music is so fucking ass now his new release today I mean this album sucks dolphin dick.

January 3, 2025

I can't do this anymore though. I'm slipping. I can't keep walking through the same days and the same rooms, I can't keep taking the same drugs and having the same dreams. I can't keep hating the same people. I can't smile at the same faces.

i'm so tired. i cant keep doing this. I can't keep waking up to the same house. I cant keep trying the same things to trick myself into wanting this. I cant keep trying to want this. I cant keep trying to want to live. i've never wanted to live. i never will. I cant keep coming on here and whining.

My father always said you have be retarded or faggots to get caught go jail for anything not related to money. Everytime he said this I would think about heros like Brenton Tarrant, Alexander bisosne, Ander Breivik or Robert Bowers.

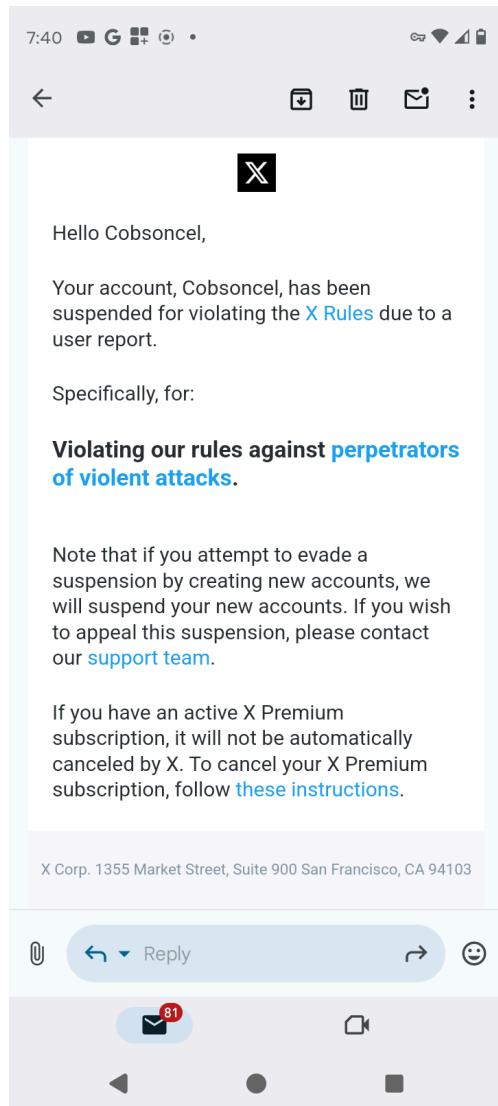

Why not kill yourself then go to penitentiary where they get more money, labor, and fee for basic services. Why deal with the hassle of court, trials, witnesses, lawyers, inmates, worse maybe hang rapes. This also gives your “victims” comfort.

January 10 2025

I haven't been writing lately. I just feel like rushing it and I can't take it anymore. My brain feels numb and I'm about to explode

I'm so fucking sick and I have magazine I'll post it later

My grades are shit. One, it feels like my teachers have something against me. Two in some classes I don't even want to try.

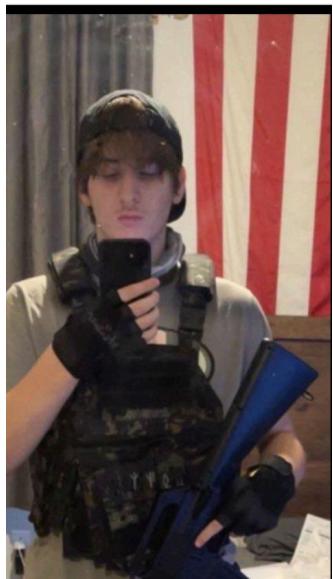

The shooting will happen next Thursday. This is a complete failure and not the original plan I had. Due my incompetent, the law and family issues. This will be rushed but an actual gun will be involved. The original plan was going to be like Saint Gendron but posted a Soyjak.party with AR-15, Glock with switch, Maverick 88 shotgun. While Livestream with a gopro attacking a high school.

Livestream school shootings have been attempted (Dylan Butler) and even successfully Livestream Hugo Jackson did it but failed to advertise anywhere.

Right now I only have two gun hands. I think I will make Molotov and bring gasoline tanks. Two kitchen knives.

Fear of being fedded before doing anything.

Tomorrow is the day. I was planning on Thursday but I need to speed things up. I don't have a lot of time.

Holy shit I'm nervous, scared and excited at the same time.

Scared of failing to kill myself then going jail.

My goal is to kill at least 10 people to beat the troon elementary school shooter.

Finally face pic God I am ugly. 4 hours to go.

There's a bunch of middle and elementary kids.
